

PROFESSIONAL SUMMARY

- ♦ Senior Full Stack Engineer with 7+ years of experience in building scalable web applications using Java, Spring Boot, React, and modern JavaScript frameworks
- ♦ Strong expertise in microservices architecture, REST API development, and responsive frontend design
- ♦ Skilled in end-to-end development, performance optimization, and system design fundamentals, with a focus on building reliable and scalable applications

TECHNICAL SKILLS

- Java, JavaScript, TypeScript, Python
- React.js, Next.js, HTML, CSS
- Spring Boot, Microservices, REST APIs, Node.js, GraphQL
- MySQL, PostgreSQL, MongoDB
- Git, Docker
- System Design, API Design, CI/CD

PROFESSIONAL EXPERIENCE

Senior Software Engineer | (Wayfair) via Canterra IT Services / Foray Software

Feb 2023 – Dec 2025

- ♦ Worked on high-scale e-commerce systems handling large supplier and product data workflows
- ♦ Designed and enhanced supplier onboarding workflows, improving efficiency and reducing processing delays for high-volume integrations
- ♦ Developed scalable REST APIs using Java & Spring Boot, supporting supplier operations and product lifecycle systems
- ♦ Led warehouse automation initiatives, reducing manual intervention and improving operational reliability
- ♦ Built export status tracking system with optimized SQL queries and indexing, reducing reporting effort by 25%
- ♦ Developed supplier KPI dashboards, enabling data-driven insights and saving 10+ hours/week
- ♦ Implemented product ranking algorithms, improving product visibility and increasing sales by 30%
- ♦ Contributed to React-based UI modules for supplier dashboards and media workflows
- ♦ Collaborated with product, design, and engineering teams in Agile environment to deliver scalable features

Senior Software Engineer | Pure Software

Oct 2021 – Jan 2023

- ♦ Revamped core modules of a real estate platform, improving UI architecture and user engagement
- ♦ Designed and developed CRM features for seller management, including advanced search and filtering capabilities
- ♦ Built backend services and improved performance through query optimization and efficient API design
- ♦ Delivered end-to-end features by collaborating with cross-functional stakeholders

Software Engineer | Qolsys Software

Dec 2018 - Aug 2021

- ♦ Developed Android-based smart home security features, including sensor configuration and device monitoring
- ♦ Built real-time emergency response workflows for security and medical use cases
- ♦ Improved backend integrations and device activation workflows, enhancing system reliability

ACADEMICS

Academics:

- ♦ Bachelor of Engineering from Andhra University, Andhra Pradesh, India

KEY ACHIEVEMENTS

- ♦ Increased product visibility and sales by 30% through ranking algorithm implementation
- ♦ Reduced manual reporting effort by 25% via optimized backend solutions
- ♦ Saved 10+ hours/week through automation and analytics dashboards
